Schools Incursion Program 2024

# Welcome To Creative Learning

Welcome to the 2024 Creative Learning Program!

What was named our Arts & Education program is now the refreshed Creative Learning Program. Still offering a wide range of arts incursions for students across the state, the new program also offers creative projects with young people in a community setting.

For over 50 years, Regional Arts Victoria has been the leader in providing educational arts experiences for children and young people across Victoria. Each year we offer a range of performances and workshop programs to schools throughout regional and metropolitan Victoria.

Spanning performances and workshops across a variety of art forms, our 2024 Creative Learning school incursion program offers opportunities for connection and positive impact spread across the entire program! We are pleased to be offering both in person experiences and accessible online programs with professional and experienced artists to educate and delight your students.

From engaging theatre to building your own urban landscapes, there are options for both primary and secondary ages to deepen creativity as artists and audiences, led by award-winning companies, regionally based and First Nations artists.
