

# A Little Bit of Blue

Hello!  
I am a Satin  
Bowerbird

Bowerbirds only  
live in Australia  
and Papua New Guinea

I like to eat fruit,  
leaves and insects

If I can  
catch them!

My favorite colour is blue,  
I collect every blue thing  
I can find!

I took some blue  
things from  
Mrs Mavis  
Hooley's House -  
She was very cross!

Mrs Hooley called  
Detective Harry McGee.  
He came to investigate.  
He's good at finding  
missing things....  
well, sometimes at least!

The Detective found  
where I had been  
keeping my collection  
- in my bower!

The bower is a stage. I do dances  
there and I fill it full  
of blue things I  
collect. I hope  
the girl bowerbird  
will like it!

Things you might like to try  
at home:

- 1) Gather some dry grasses and twigs.
- 2) Collect as many blue objects as you can find.
- 3) Make your own bowerbird bower and perform your own dances!
